Commercial and Fleet Equipment Price List

For U.S. Sourced Products
January 11, 2021

GPL-5100Y

Gasboy International LLC
Greensboro, NC

Terms And Conditions

All Prices In U.S. Dollars, Net 30 Days and do not include taxes of any kind.

Shipping and Handling Fee

Please refer to SP-3291K for US Shipping and Handling Rates. For Canadian Shipping and Handling Rates, please refer to SP-3299H.

Regulatory Approvals

All standard pumps in this price list are UL listed except three-phase self-contained units, and units with nozzle activated reset (i.e. units that do not have a two-step activation such as nozzle and push to start).

All DEF models are MET listed.

Warranty

For all Gasboy product warranty information, consult MDE-4255H Gasboy Warranty Policy Statement.

Trademarks

Windows® is a registered trademark of Microsoft, Inc.

Please refer to the Gasboy® Distributor Manual for Terms and Conditions.

Atlas Commercial Pumps & Dispensers

Gasboy Atlas Quick Ship Program
Electronic & Mechanical Dispensers
Available to US Customers Only

Program Objectives
- Satisfy distributors' emergency equipment needs for replacements or knock-offs
- Available on select Atlas Mechanical and Electronic Commercial models
- Units will ship from stock the next working day after receipt of order and any shipping holds released.
- Order must be received by 3:00pm EST, otherwise, order will be entered (and the clock starts) on the next working day
- Standard published list prices apply.

Specs
- Limited Gasboy® Atlas™ 9153K and 9853K models
- Units equipped with typical options purchased by most customers
- All units are side load, 115V, US Gallons with internal filters and preset values
- Atlas Mechanical models include 10:1 pulser (CX)
- Atlas Electronic models include Pulse Output and Electromechanical Totalizer (EM Tot)
- Graphics: Standard English gallon dial face, black side sheathing, white doors, and blank brands.

Order procedure:
- Gasboy Atlas Quick Ship models can be ordered on the Gasboy sales portal.
- Unit ships normal truck freight unless customer selects (and pays for) alternative shipping. Must indicate on PO if alternative shipping is required.

Mechanical Suction Pump

Atlas Commercial Pumps & Dispensers

Gasboy Atlas 8700K Series

Notes:

a. Model 52A Pressure Reg. valve is required for AST installation. TW2 require 2 valves.
b. This model should not be used with AST due to flow restrictions of the Pressure Regulation Valve.
c. EK Pulser & Top Mounting Kits include the necessary pulsers, top cabinet panels & wiring for factory installed Electrical Keytrol. See EK price list for EK consoles. Gallons use 10:1 and Liters use 1:1 option.
d. For pulse output to remote EK, Gasboy fuel mgmt. system, or other mfg.'s control systems. All options available for gallon or liter measure. CX not approved for W&M applications except for Electric Keytrol.
e. F option = adapter only. Must specify internal filter element part number.
f. Standard on dispensers & 9153KTW1.
g. N/A with EK or Light options. Zero start model provided unless accumulative model is specified. Liters not available.
h. Satellite piping available on remote dispensers only.
i. Hand crank is N/A on remote dispensers, TW1 pumps, or w/ PP option.
j. Requires F (filter adapter) option.
k. Kits include adapter, filter element pipe fittings and filter cap. Not for use w/ methanol.
l. VR Kit includes special VR nozzle boot & hanger only for side load, front load is convertible to VR boot and hook as standard.
m. Kit for Balanced VR System - includes vapor boot, hook, splitter, and feeder hose. Pump models include internal vapor piping. Does NOT include Co-Ax hoses, nozzle, breakaway, swivel, or HHR - order seperately. Requires Field Installation.
n. VR 10 max. sale $999.99, max price $9.99. R.H. money wheel displays $0.00 to $0.90 (numbered 00, 10, 20.....90) with indicator lines every two cents.
o. Accum. totalizer instead shows on reverse side (front).
p. Slowdown valve - standard on remote disp, and TW1M & TW1 pumps.
q. HP c.d. motor for single phase application, 3/4 HP c.d. motor for 3 phase applications.
r. R18896-G2 Blanking Cap included.
s. Not available with EK option.
t. Vapor recovery not available on TW1M pumps.
u. Requires Gilbarco Universal Distribution Box.
v. For direct connection with Gasboy PLUS and PRIME Controllers.
w. Provides pulse output for Series 1000, remote-mount Electrical Keytrol, or other mfgs control systems.
x. Provides two pulse outputs - one for fuel Mgt, one for tank monitor, twin hose.
y. Required for Series 1000 System. One required per hose for the AC auth. Input when connecting to control devices w/ solid state relays.
z. For the direct drive of sub pumps, up to 3/4 hp, 120V; up to 1 1/2 hp, 240V. Not required with external relay box.
aa. Required by W&M for resale applications. Non-resettable.
bb. 9840K Pump should not be used with above ground tanks (ASTs), due to excessive restriction from Pressure Regulating Valve (not included).
cc. Above ground tank kit is required for the 9850K pump for ASTs.
dd. Front nozzle models are for lane-oriented applications. Volume displays are on the side with the nozzle only.
ee. TW3 Master/Satellite combo includes (in a single cabinet) a master unit on one isde and a satellite for a different master on the back side.
ff. 9840K and 9850K pump motors require 230V service.
gg. Satellite piping available on dispensers and suction models. Note different price because it includes an extra solenoid valve.
hh. Warm Weather (WW) model does not include internal heaters and should not be used where ambient temperatures will fall below 12°F - DEF will freeze.
ii. Warm Weather (WW) model not warranted for DEF freeze damage.
jj. See Atlas Install Manual **MDE-4331K** for boot side and non-boot side inlet clarification.
kk. Must use DEF compatible Hose, Nozzle and Breakaway Swivel.
ll. Includes mis-fueling prevention.
mm. Standard nozzle without mis-fueling prevention.
nn. Mounts to 042082 ASTRA pedestal.
oo. Vapor recovery system cannot exceed 10 gpm. Use flow reducer if needed for application.
pp. Includes coaxial-to-standard hose outlet adapter & o-rings.

Atlas Commercial Pumps & Dispensers

Gasboy Atlas 9800K Series

Notes:

a. Model 52A Pressure Reg. valve is required for AST installation. TW2 require 2 valves.
b. This model should not be used with AST due to flow restrictions of the Pressure Regulation Valve.
c. EK Pulser & Top Mounting Kits include the necessary pulsers, top cabinet panels & wiring for factory installed Electrical Keytrol. See EK price list for EK consoles. Gallons use 10:1 and Liters use 1:1 option.
d. For pulse output to remote EK, Gasboy fuel mgmt. system, or other mfg.'s control systems. All options available for gallon or liter measure. CX not approved for W&M applications except for Electric Keytrol.
e. F option = adapter only. Must specify internal filter element part number.
f. Standard on dispensers & 9153KTW1.
g. N/A with EK or Light options. Zero start model provided unless accumulative model is specified. Liters not available.
h. Satellite piping available on remote dispensers only.
i. Hand crank is N/A on remote dispensers, TW1 pumps, or w/ PP option.
j. Requires F (filter adapter) option.
k. Kits include adapter, filter element pipe fittings and filter cap. Not for use w/ methanol.
l. VR Kit includes special VR nozzle boot & hanger only for side load, front load is convertible to VR boot and hook as standard.
m. Kit for Balanced VR System - includes vapor boot, hook, splitter, and feeder hose. Pump models include internal vapor piping. Does NOT include Co-Ax hoses, nozzle, breakaway, swivel, or HHR - order seperately. Requires Field Installation.
n. VR 10 max. sale $999.99, max price $9.99. R.H. money wheel displays $0.00 to $0.90 (numbered 00, 10, 20.....90) with indicator lines every two cents.
o. Accum. totalizer instead shows on reverse side (front).
p. Slowdown valve - standard on remote disp, and TW1M & TW1 pumps.
q. HP c.d. motor for single phase application, 3/4 HP c.d. motor for 3 phase applications.
r. R18896-G2 Blanking Cap included.
s. Not available with EK option.
t. Vapor recovery not available on TW1M pumps.
u. Requires Gilbarco Universal Distribution Box.
v. For direct connection with Gasboy PLUS and PRIME Controllers.
w. Provides pulse output for Series 1000, remote-mount Electrical Keytrol, or other mfgs control systems.
x. Provides two pulse outputs - one for fuel Mgt, one for tank monitor, twin hose.
y. Required for Series 1000 System. One required per hose for the AC auth. Input when connecting to control devices w/ solid state relays.
z. For the direct drive of sub pumps, up to 3/4 hp, 120V; up to 1 1/2 hp, 240V. Not required with external relay box.
aa. Required by W&M for resale applications. Non-resettable.
bb. 9840K Pump should not be used with above ground tanks (ASTs), due to excessive restriction from Pressure Regulating Valve (not included).
cc. Above ground tank kit is required for the 9850K pump for ASTs.
dd. Front nozzle models are for lane-oriented applications. Volume displays are on the side with the nozzle only.
ee. TW3 Master/Satellite combo includes (in a single cabinet) a master unit on one isde and a satellite for a different master on the back side.
ff. 9840K and 9850K pump motors require 230V service.
gg. Satellite piping available on dispensers and suction models. Note different price because it includes an extra solenoid valve.
hh. Warm Weather (WW) model does not include internal heaters and should not be used where ambient temperatures will fall below 12°F - DEF will freeze.
ii. Warm Weather (WW) model not warranted for DEF freeze damage.
jj. See Atlas Install Manual **MDE-4331K** for boot side and non-boot side inlet clarification.
kk. Must use DEF compatible Hose, Nozzle and Breakaway Swivel.
ll. Includes mis-fueling prevention.
mm. Standard nozzle without mis-fueling prevention.
nn. Mounts to 042082 ASTRA pedestal.
oo. Vapor recovery system cannot exceed 10 gpm. Use flow reducer if needed for application.
pp. Includes coaxial-to-standard hose outlet adapter & o-rings.

Atlas Commercial Pumps & Dispensers

Gasboy Atlas 9840K Series

Notes:

a. Model 52A Pressure Reg. valve is required for AST installation. TW2 require 2 valves.
b. This model should not be used with AST due to flow restrictions of the Pressure Regulation Valve.
c. EK Pulser & Top Mounting Kits include the necessary pulsers, top cabinet panels & wiring for factory installed Electrical Keytrol. See EK price list for EK consoles. Gallons use 10:1 and Liters use 1:1 option.
d. For pulse output to remote EK, Gasboy fuel mgmt. system, or other mfg.'s control systems. All options available for gallon or liter measure. CX not approved for W&M applications except for Electric Keytrol.
e. F option = adapter only. Must specify internal filter element part number.
f. Standard on dispensers & 9153KTW1.
g. N/A with EK or Light options. Zero start model provided unless accumulative model is specified. Liters not available.
h. Satellite piping available on remote dispensers only.
i. Hand crank is N/A on remote dispensers, TW1 pumps, or w/ PP option.
j. Requires F (filter adapter) option.
k. Kits include adapter, filter element pipe fittings and filter cap. Not for use w/ methanol.
l. VR Kit includes special VR nozzle boot & hanger only for side load, front load is convertible to VR boot and hook as standard.
m. Kit for Balanced VR System - includes vapor boot, hook, splitter, and feeder hose. Pump models include internal vapor piping. Does NOT include Co-Ax hoses, nozzle, breakaway, swivel, or HHR - order seperately. Requires Field Installation.
n. VR 10 max. sale $999.99, max price $9.99. R.H. money wheel displays $0.00 to $0.90 (numbered 00, 10, 20…..90) with indicator lines every two cents.
o. Accum. totalizer instead shows on reverse side (front).
p. Slowdown valve - standard on remote disp, and TW1M & TW1 pumps.
q. HP c.d. motor for single phase application, 3/4 HP c.d. motor for 3 phase applications.
r. R18896-G2 Blanking Cap included.
s. Not available with EK option.
t. Vapor recovery not available on TW1M pumps.
u. Requires Gilbarco Universal Distribution Box.
v. For direct connection with Gasboy PLUS and PRIME Controllers.
w. Provides pulse output for Series 1000, remote-mount Electrical Keytrol, or other mfgs control systems.
x. Provides two pulse outputs - one for fuel Mgt, one for tank monitor, twin hose.
y. Required for Series 1000 System. One required per hose for the AC auth. Input when connecting to control devices w/ solid state relays.
z. For the direct drive of sub pumps, up to 3/4 hp, 120V; up to 1 1/2 hp, 240V. Not required with external relay box.
aa. Required by W&M for resale applications. Non-resettable.
bb. 9840K Pump should not be used with above ground tanks (ASTs), due to excessive restriction from Pressure Regulating Valve (not included).
cc. Above ground tank kit is required for the 9850K pump for ASTs.
dd. Front nozzle models are for lane-oriented applications. Volume displays are on the side with the nozzle only.
ee. TW3 Master/Satellite combo includes (in a single cabinet) a master unit on one isde and a satellite for a different master on the back side.
ff. 9840K and 9850K pump motors require 230V service.
gg. Satellite piping available on dispensers and suction models. Note different price because it includes an extra solenoid valve.
hh. Warm Weather (WW) model does not include internal heaters and should not be used where ambient temperatures will fall below 12°F - DEF will freeze.
ii. Warm Weather (WW) model not warranted for DEF freeze damage.
jj. See Atlas Install Manual **MDE-4331K** for boot side and non-boot side inlet clarification.
kk. Must use DEF compatible Hose, Nozzle and Breakaway Swivel.
ll. Includes mis-fueling prevention.
mm. Standard nozzle without mis-fueling prevention.
nn. Mounts to 042082 ASTRA pedestal.
oo. Vapor recovery system cannot exceed 10 gpm. Use flow reducer if needed for application.
pp. Includes coaxial-to-standard hose outlet adapter & o-rings.

*ATC Measurement Canada approved. Field installation required.
**Per Side - Requires "Z" option. TW3 is one side only.

Atlas Commercial Pumps & Dispensers

Gasboy Atlas 9850K Series

Notes:

a. Model 52A Pressure Reg. valve is required for AST installation. TW2 require 2 valves.
b. This model should not be used with AST due to flow restrictions of the Pressure Regulation Valve.
c. EK Pulser & Top Mounting Kits include the necessary pulsers, top cabinet panels & wiring for factory installed Electrical Keytrol. See EK price list for EK consoles. Gallons use 10:1 and Liters use 1:1 option.
d. For pulse output to remote EK, Gasboy fuel mgmt. system, or other mfg.'s control systems. All options available for gallon or liter measure. CX not approved for W&M applications except for Electric Keytrol.
e. F option = adapter only. Must specify internal filter element part number.
f. Standard on dispensers & 9153KTW1.
g. N/A with EK or Light options. Zero start model provided unless accumulative model is specified. Liters not available.
h. Satellite piping available on remote dispensers only.
i. Hand crank is N/A on remote dispensers, TW1 pumps, or w/ PP option.
j. Requires F (filter adapter) option.
k. Kits include adapter, filter element pipe fittings and filter cap. Not for use w/ methanol.
l. VR Kit includes special VR nozzle boot & hanger only for side load, front load is convertible to VR boot and hook as standard.
m. Kit for Balanced VR System - includes vapor boot, hook, splitter, and feeder hose. Pump models include internal vapor piping. Does NOT include Co-Ax hoses, nozzle, breakaway, swivel, or HHR - order seperately. Requires Field Installation.
n. VR 10 max. sale $999.99, max price $9.99. R.H. money wheel displays $0.00 to $0.90 (numbered 00, 10, 20.....90) with indicator lines every two cents.
o. Accum. totalizer instead shows on reverse side (front).
p. Slowdown valve - standard on remote disp, and TW1M & TW1 pumps.
q. HP c.d. motor for single phase application, 3/4 HP c.d. motor for 3 phase applications.
r. R18896-G2 Blanking Cap included.
s. Not available with EK option.
t. Vapor recovery not available on TW1M pumps.
u. Requires Gilbarco Universal Distribution Box.
v. For direct connection with Gasboy PLUS and PRIME Controllers.
w. Provides pulse output for Series 1000, remote-mount Electrical Keytrol, or other mfgs control systems.
x. Provides two pulse outputs - one for fuel Mgt, one for tank monitor, twin hose.
y. Required for Series 1000 System. One required per hose for the AC auth. Input when connecting to control devices w/ solid state relays.
z. For the direct drive of sub pumps, up to 3/4 hp, 120V; up to 1 1/2 hp, 240V. Not required with external relay box.
aa. Required by W&M for resale applications. Non-resettable.
bb. 9840K Pump should not be used with above ground tanks (ASTs), due to excessive restriction from Pressure Regulating Valve (not included).
cc. Above ground tank kit is required for the 9850K pump for ASTs.
dd. Front nozzle models are for lane-oriented applications. Volume displays are on the side with the nozzle only.
ee. TW3 Master/Satellite combo includes (in a single cabinet) a master unit on one isde and a satellite for a different master on the back side.
ff. 9840K and 9850K pump motors require 230V service.
gg. Satellite piping available on dispensers and suction models. Note different price because it includes an extra solenoid valve.
hh. Warm Weather (WW) model does not include internal heaters and should not be used where ambient temperatures will fall below 12°F - DEF will freeze.
ii. Warm Weather (WW) model not warranted for DEF freeze damage.
jj. See Atlas Install Manual **MDE-4331K** for boot side and non-boot side inlet clarification.
kk. Must use DEF compatible Hose, Nozzle and Breakaway Swivel.
ll. Includes mis-fueling prevention.
mm. Standard nozzle without mis-fueling prevention.
nn. Mounts to 042082 ASTRA pedestal.
oo. Vapor recovery system cannot exceed 10 gpm. Use flow reducer if needed for application.
pp. Includes coaxial-to-standard hose outlet adapter & o-rings.

Atlas Commercial Pumps & Dispensers

Gasboy Atlas 9100K Series

Notes:

a. Model 52A Pressure Reg. valve is required for AST installation. TW2 require 2 valves.
b. This model should not be used with AST due to flow restrictions of the Pressure Regulation Valve.
c. EK Pulser & Top Mounting Kits include the necessary pulsers, top cabinet panels & wiring for factory installed Electrical Keytrol. See EK price list for EK consoles. Gallons use 10:1 and Liters use 1:1 option.
d. For pulse output to remote EK, Gasboy fuel mgmt. system, or other mfg.'s control systems. All options available for gallon or liter measure. CX not approved for W&M applications except for Electric Keytrol.
e. F option = adapter only. Must specify internal filter element part number.
f. Standard on dispensers & 9153KTW1.
g. N/A with EK or Light options. Zero start model provided unless accumulative model is specified. Liters not available.
h. Satellite piping available on remote dispensers only.
i. Hand crank is N/A on remote dispensers, TW1 pumps, or w/ PP option.
j. Requires F (filter adapter) option.
k. Kits include adapter, filter element pipe fittings and filter cap. Not for use w/ methanol.
l. VR Kit includes special VR nozzle boot & hanger only for side load, front load is convertible to VR boot and hook as standard.
m. Kit for Balanced VR System - includes vapor boot, hook, splitter, and feeder hose. Pump models include internal vapor piping. Does NOT include Co-Ax hoses, nozzle, breakaway, swivel, or HHR - order seperately. Requires Field Installation.
n. VR 10 max. sale $999.99, max price $9.99. R.H. money wheel displays $0.00 to $0.90 (numbered 00, 10, 20.....90) with indicator lines every two cents.
o. Accum. totalizer instead shows on reverse side (front).
p. Slowdown valve - standard on remote disp, and TW1M & TW1 pumps.
q. HP c.d. motor for single phase application, 3/4 HP c.d. motor for 3 phase applications.
r. R18896-G2 Blanking Cap included.
s. Not available with EK option.
t. Vapor recovery not available on TW1M pumps.
u. Requires Gilbarco Universal Distribution Box.
v. For direct connection with Gasboy PLUS and PRIME Controllers.
w. Provides pulse output for Series 1000, remote-mount Electrical Keytrol, or other mfgs control systems.
x. Provides two pulse outputs - one for fuel Mgt, one for tank monitor, twin hose.
y. Required for Series 1000 System. One required per hose for the AC auth. Input when connecting to control devices w/ solid state relays.
z. For the direct drive of sub pumps, up to 3/4 hp, 120V; up to 1 1/2 hp, 240V. Not required with external relay box.
aa. Required by W&M for resale applications. Non-resettable.
bb. 9840K Pump should not be used with above ground tanks (ASTs), due to excessive restriction from Pressure Regulating Valve (not included).
cc. Above ground tank kit is required for the 9850K pump for ASTs.
dd. Front nozzle models are for lane-oriented applications. Volume displays are on the side with the nozzle only.
ee. TW3 Master/Satellite combo includes (in a single cabinet) a master unit on one isde and a satellite for a different master on the back side.
ff. 9840K and 9850K pump motors require 230V service.
gg. Satellite piping available on dispensers and suction models. Note different price because it includes an extra solenoid valve.
hh. Warm Weather (WW) model does not include internal heaters and should not be used where ambient temperatures will fall below 12°F - DEF will freeze.
ii. Warm Weather (WW) model not warranted for DEF freeze damage.
jj. See Atlas Install Manual **MDE-4331K** for boot side and non-boot side inlet clarification.
kk. Must use DEF compatible Hose, Nozzle and Breakaway Swivel.
ll. Includes mis-fueling prevention.
mm. Standard nozzle without mis-fueling prevention.
nn. Mounts to 042082 ASTRA pedestal.
oo. Vapor recovery system cannot exceed 10 gpm. Use flow reducer if needed for application.
pp. Includes coaxial-to-standard hose outlet adapter & o-rings.

Universal Distribution Boxes

For us with 8800K				
Part #	Description	Note	Price Option Name	Price/Ea
PA0261X000022	Dual board, 2 inputs			$1,248

▪ Select desired combination of Hose Clamp/Spring Reel Kit and Support Post Kit (max. of 15' of hose; for 1 1/4" - 12')

Dispenser Accessories

Hoses, Nozzles, Swivels, Retractors, and Valves

Notes:
a.   These prices only apply when purchased as an accessory to a new unit. When purchased separately, purchase through spare parts.
b.   Reconnectable breakaways may be snapped back together if the breakaway disconnects.
c.   Non-reconnect able breakaway models must be discarded if the breakaway disconnects.
d.   Flow limiters are required to comply with EPA 10 gpm maximum flow rate regulations for light duty vehicles.
e.   Select the Hose Clamp/Spring Reel Kit based on the applicable hose type. Includes hose clamp & reel only; support post must be purchased separately.
f.   Select the Support Post Kit based on the applicable dispenser type. Includes support post, mounting hardware, and mounting instructions.
g.   Required for AST installations where the tank is at an elevation that produces a gravity head on the suction pump. Cannot be used with 91/9853TW1M models. Due to flow restriction, they cannot be used with 91/9853HC, 91/9840, 9850 models. TW2 models require two Valves.
h.   Required for AST installation of 9850 suction pumps.
i.   Required for remote dispensers. 91/9852X, 91/9853X Series.
j.   Required for remote dispensers. 91/9840X, 9850X Series.
k.   For suction pump applications. 91/9852, 91/9853 Series.
l.   Recommended for 9850KXTW1 due to limited base to manifold distance.
